

 **D'ADAMO**
PERSONALIZED NUTRITION®

2019 CATALOG

D'Adamo Personalized Nutrition is a support system for an earth-changing concept.

It's all about personalized nutrition.
It's all about personalized living.
It's all about people.

We're not a one-size-fits-all supplement company. We're the craftsmen of nutrition tailored for you. We're dedicated naturopaths, proven healers, passionate producers *and* consumers of our products. The truth is, we're different because you're different.

Your singularity is woven throughout your biology. It's printed in your DNA, pulses down your neurons, flows up your veins. That's where we come in. We strive to be just unique — in the one-of-a-kind personalized service and genuine care we offer.

The key to your individuality lies in blood type. Your ABO profile helps you understand why certain foods are right for you and others are not. It provides insight into how you can best handle stress, manage weight and plan strategies for overall health and well-being.

Simply put, blood type is the foundation of health — and all of the physical and mental components that define it. Here at D'Adamo Personalized Nutrition (DPN), we build on that unique biological infrastructure. Our nutritional supplements, protein powders, teas, bars and condition-specific products are custom-made for your body's needs.

Welcome to the world of personalization, where you can finally be you.

The diet that knows you best.

The O blood type is nature's first successful model. The genetic traits associated with Type O blood include exceptional strength, a lean physique and a productive mind. When you adopt the Type O diet and lifestyle, you have the opportunity to reap the benefits of your heritage and avoid common Type O health issues, including insulin resistance, a sluggish thyroid and inflammatory conditions. In addition to eating right, regular vigorous exercise helps Type Os maintain a healthy weight and manage stress.

DIET PROFILE

High Protein: Meat, fish, vegetables, fruit, limited grains, beans, legumes

QUICK FOOD REFERENCE

Beneficials: Beef, olive oil, walnut, broccoli, banana, green tea
Avoids: Pork, milk, corn, white potato, orange, coffee

SUPPLEMENTS

Blood Type O Specific Products: Deflect O, Polyflora O, Phytocal O, Polyvite O
Genoma Targeted Formulas: Fucus Plus, Catechol

EXERCISE REGIMEN

Intense physical exercise such as aerobics, running, and martial arts

CARNIVORE

DIET PROFILE

Largely Vegetarian: Vegetables, tofu, seafood, grains, legumes, fruit, turkey

QUICK FOOD REFERENCE

Beneficials: Soybean, cod, peanut, oats, carrot, pineapple
Avoids: Beef, wheat/white flour, sweet potato, coconut, tomato, banana

SUPPLEMENTS

Blood Type A Specific Products: Deflect A, Polyflora A, Phytocal A, Polyvite A
Genoma Targeted Formulas: Cortiguard, Collinsonia Plus

EXERCISE REGIMEN

Calming, centering exercises, such as yoga and Tai Chi

HERBIVORE

B

B is for balance! An omnivorous diet with a focus on organic meats, dairy and vegetables is recommended for Type B. Dr. Peter D'Adamo cautions Type Bs against consuming chicken, corn and wheat, as these foods contain a lectin that interferes with metabolic function. When Type Bs are out of balance, they are at an increased risk for depression, insulin resistance and hypothyroidism. Daily exercise that engages both the mind and body, such as golf or tennis, helps Type Bs thrive.

DIET PROFILE

Balanced Omnivore: Meat, dairy, grains, fruit, vegetables, fish, seafood, select beans, legumes

QUICK FOOD REFERENCE

Beneficials: Lamb, salmon, milk, feta cheese, bell pepper, grapes

Avoids: Chicken, peanut, wild rice, corn, avocado, tomato

SUPPLEMENTS

Blood Type B Specific Products: Deflect B, Polyflora B, Phytocal B, Polyvite B

Genoma Targeted Formulas: Nitricycle, Cortiguard

EXERCISE REGIMEN

Moderate physical exercise with a mental component, such as hiking, cycling, tennis and swimming

O M N I V O R E

AB

Found in less than 5% of the population, AB is the rarest blood type. Formed as a result of the intermingling of Type A and B, Type ABs are advised to enjoy a diet with a balance of lean protein, organic vegetables and grains. Health challenges of Type ABs include autoimmune diseases and age-related cognitive issues. Following the Type AB lifestyle tips, such as routinely engaging in both vigorous and calming exercise to burn off excess adrenaline, helps bring the mind and body into focus.

DIET PROFILE

Mixed Diet: Lamb, fish, dairy, tofu, beans, legumes, grains, vegetables, fruit

QUICK FOOD REFERENCE

Beneficials: Turkey, tuna, egg, peanut, soybean, oats

Avoids: Chicken, beef, butter, avocado, corn, coffee

SUPPLEMENTS

Blood Type AB Specific Products: Deflect AB, Polyflora AB, Phytocal AB, Polyvite AB

Genoma Targeted Formulas: Nitricycle, Catechol

EXERCISE REGIMEN

Calming, centering exercises, such as yoga, combined with moderate exercise, like cycling and tennis

My Success Story

I started The Blood Type Diet in 2000 while attending massage therapy school. I attended a presentation about The Blood Type Diet, and the speaker informed us that by following this diet she had cured her stomach issues. When I began researching The Blood Type Diet, I found many similarities between the recommendations and restrictions and how I felt after eating certain foods. I knew my blood type from my first pregnancy. The “wrong” foods made me feel tired and achy and the “good” foods gave me energy and strength. Unlike many diet trends at the time, The Blood Type Diet had immediate results — and was based on proven research and facts.

I now have been on The Blood Type Diet for almost 15 years and have maintained a very healthy weight and feel great. I have had two more fabulous pregnancies in my late thirties and I have more energy now than I did 20 years ago. My blood pressure, cholesterol levels and overall health are fantastic. I have a very strong immune system and rarely, if ever, get the flu, even when caring for my family when they all have it.

Some challenges I initially had with The Blood Type Diet were finding alternatives to favorite foods I should avoid, but I was able to eventually replace these with new foods that were right for my blood type. Dr. D’Adamo’s website recipes have also been very helpful in finding new favorites.

My number one tip in following this diet is to take baby steps. It took me years to get where I am today by switching things out slowly. Just avoiding one specific “trigger” food can make a major difference for some people.

Blood type is the hidden key to the right diet. Once you learn about all the blood types, it makes so much sense. I hear so many people say they couldn’t do it, but food is medicine, and you are what you eat! No drug will do what a healthy diet can!

Out of 6,617 individuals surveyed, **75% saw a significant improvement in health** after one month following The Blood Type Diet. Reported benefits included weight loss, better digestion, enhanced stress resistance, increased energy and enhanced mental clarity. The proportion of positive results was consistent across all blood types.

Tips

Everyone is different. Some people can jump into a new lifestyle immediately, while others need time to adjust to a change of pace. Personalize your journey with these suggestions for starting The Blood Type Diet.

Add three beneficial items to your diet and eliminate three avoid foods, per week. Continue for four weeks and evaluate how you feel.

Your beneficial foods are your natural medicine. Try to incorporate as many of these foods into your diet as possible.

Plan your meals in advance. Review your favorite recipes and swap avoid foods for healthier neutral or beneficial foods.

When grocery shopping, look for seasonal produce and meats from local farms. Locally sourced food offers fresh, healthy nutrients.

Why Take Supplements Made For You?

Or, the real question: Why take supplements made for *everyone else*?

Sometimes even the healthiest eaters need a little boost. That's why we offer innovative formulas developed specifically for each blood type's needs.

All of our products are carefully crafted to deliver key nutrients, in the right doses, to optimize wellness. Give your body a little extra love. You have nothing to lose — and only health to gain.

Deflect®

Blood type specific lectin blocking formula

One of Dr. D'Adamo's most popular formulas, Deflect has a wide range of applications, including weight loss, metabolism enhancement and maintenance of digestive health. Deflect blocks problematic dietary lectins, blood type specific proteins that wreak havoc in the gut and on the immune system.

Ingredient Highlights:

Type O: N-Acetyl D-Glucosamine, Bladderwrack, Larch Arabinogalactan. (BT0040)

Type A: Chondroitin Sulfate, D-Mannose, Cranberry Concentrate. (BT004A)

Type B: Larch Arabinogalactan, Pectin (citrus), N-Acetyl Cysteine. (BT004B)

Type AB: Larch Arabinogalactan, Cranberry and Pineapple Concentrate, D-Mannose. (BT004AB)

120 vegetarian capsules | \$36.95

Polyvite®

Blood type specific multivitamin formula

Each Polyvite formula has been uniquely crafted to address known deficiencies and metabolic vulnerabilities linked to specific blood types. At the same time, this supplement strengthens processes that are central to how each blood type deals with illness and aging. Polyvite is crafted from whole food sources.

Ingredient Highlights:

Type O: Vitamins A, C (from acerola), B6 and B12, Thiamine, Riboflavin. (BT0060)

Type A: Vitamins A, C (from acerola), D, E, Biotin, Pantothenic Acid. (BT006A)

Type B: Vitamins A, C (ascorbic acid and acerola), D, E, Niacin, Folate. (BT006B)

Type AB: Vitamins A, C, D, E, B12 (methylcobalamin), Pantothenic Acid. (BT006AB)

120 vegetarian capsules | \$36.95

Phytocal®

Blood type specific sea-based mineral formula

Dr. D'Adamo crafted Phytocal's four different mineral formulas using calcium from maerl seaweed. Every capsule contains essential cofactors and micro-mineral ratios specific to each blood type.

Maerl is a natural source of calcium with a bioavailability and utilization rate nearly double that of all other calcium sources.

Ingredient Highlights:

Type O: Vitamins D and K, Calcium (derived from seaweed), Iron, Magnesium. (BT0080)

Type A: Vitamins A and D, Calcium (derived from seaweed), Zinc, Selenium (BT008A)

Type B: Vitamins D and K, Calcium (derived from seaweed), Iron, Magnesium (BT008B)

Type AB: Vitamin D, Calcium (derived from seaweed), Magnesium, Zinc. (BT008AB)

120 vegetarian capsules | \$26.95

Polyflora®

Blood type specific prebiotic/probiotic formula

Researchers studying the human microbiome have found that your gut flora influence many aspects of health, from brain function to weight gain. They've discovered that "good" gut bacteria feed on blood type sugars as a preferred food supply. Our unique Polyflora blends blood type specific prebiotics with probiotics to maximize your friendly-flora potential.

Ingredient Highlights:

Type O: Probiotic Blend: Streptococcus Thermophilus and L-rhamnosus, Chicory 4:1 Root Extract. (BT0030)

Type A: Probiotic Blend: Bifidobacterium bifidus, L-bacillus plantarum, L-bacillus reuteri, Burdock Root. (BT003A)

Type B: Probiotic Blend: L-bulgaricus, L-bacillus coagulans, Indian Elecampane (Inula racemosa). (BT003B)

Type AB: Probiotic Blend: Lactobacillus bulgaricus and fermentum, and Dandelion 4:1 Root Extract. (BT003AB)

120 vegetarian capsules | \$36.95

Live Cell®

Blood type specific sprouted food complex

As a sprout, a plant has greater concentrations of vitamins, minerals, proteins, enzymes and phytonutrients than at any other point in its life. Dr. Peter D'Adamo designed Live Cell to optimize your health and digestion with blood type specific micronutrient sprout sources beneficial for each type.

Ingredient Highlights:

Type O: Sprouts from Kale, Onion, Broccoli, Okra. (BT0090)

Type A: Sprouts from Soy, Onion, Fennel, Adzuki. (BT009A)

Type B/AB: Sprouts from Onion, Oats, Brussels Sprouts. (BT009B-AB)

90 vegetarian capsules | \$24.95

Sip Right 4 Your Type Tea®

Blood type specific tea blends

Dr. D'Adamo worked closely with the master tea blenders at Simpson & Vail to craft a line of premium, healthy loose leaf tea blends. These designer blends are the only teas on the market today suited for the individual needs of each blood type.

Type O: Green tea is enhanced with sweet notes of licorice, rooibos and natural cherry flavor. (BT0180)

Type A: Green tea is blended with spicy notes of ginger, hawthorn berries and tangy pineapple. (BT018A)

Type B: A soothing blend of green tea with peppermint and accents of natural peach flavor. (BT018B)

Type AB: A relaxing blend of green tea with chamomile, echinacea and subtle lemon flavor. (BT018AB)

Net Weight: 4 ounces loose leaf tea | \$14.95

Brain Support

Methyl 12 Plus®

The vitality-enhancing B-vitamin

Dr. Peter D'Adamo has blended the two biologically "active" forms of vitamin B12, methylcobalamin and adenosylcobalamin, to maximize the body's absorption and utilization. Methylcobalamin is the specific form of B12 needed for nervous system health. Our formula also contains folate, the active form of vitamin B9 found in foods. If you are looking to maintain your natural energy levels, you won't find a better formula than Methyl 12 Plus.

Attentia™

Helps maintain normal cognitive function and feelings of well-being

We've all experienced a time when stress, multitasking, fatigue, poor diet and lack of exercise has dulled our thinking. In these moments, it's important to slow down, work on our diet fundamentals, relax and practice mindfulness. When nutrition alone isn't enough, Attentia goes the extra step to help you preserve cognitive health. Crafted by Dr. D'Adamo, our formula includes ginkgo biloba leaf extract, grapeseed extract and ashwaganda — all well known for their ability to enhance mental acuity.

60 vegetarian capsules | NP038 | \$19.95

“ My brain is working more efficiently — the fog has lifted! My vitality has increased and stabilized so that I don't feel like I'm running on empty by the time late afternoon rolls around!

— Victoria,
Blood Type B

Vision Support

Ocubright™

Advanced nutritional support for the eyes

Ocubright is an innovative botanical vitamin formula designed to replenish the vital nutrients lost by your eyes with age. Created by Dr. D'Adamo for use in his clinical practice, Ocubright includes lutein, zeaxanthin, bilberry, taurine, zinc, copper and eyebright. Harness the power of well-researched nutraceuticals with traditional healing botanicals. Make Ocubright your choice for maximum vision support.

60 vegetarian capsules | NP062 | \$39.95

“ I have taken this supplement for 2 years. Last year my new prescription just required a slight adjustment, instead of a major adjustment, which was the case before the supplement. My eye doctor praised the supplement and my improvement! — Luisa

Stress

Catechol™

Stress relief, especially useful for Os and ABs

Research indicates individuals of different ABO blood types have varied responses to stress. Dr. D'Adamo designed Catechol to restore a natural state of calm in individuals with blood types O and AB. Catechol has a unique, three-layer design: a base of B vitamins (including methylcobalamin), a layer of amino acids and, finally, a top level of magnolia and rhodiola. All ingredients are well-researched botanicals effective at providing relief from occasional stress.

60 vegetarian capsules | NP080 | \$19.95

Tranquility Base™

Supports relaxation; decreases stress/anxiety

Tranquility Base helps provide mental and physical relaxation while decreasing occasional stress and anxiety. This formula, right for all blood types, does not induce drowsiness and can be used as a nutritional aid to support restful, restorative sleep.

60 vegetarian capsules | NP035 | \$26.95

Cortiguard®

Stress relief, especially useful for As and Bs

Cortiguard helps to maintain a healthy response to mental pressure. Studies have shown that, during times of stress, Type As and Bs have the most rapid rise — and subsequent slowest fall — of stress hormone levels. Cortiguard has a unique three-layer design: a base of vitamin B and C, a second layer of panax ginseng root and eleuthero root plus a third layer of Ayurvedic herbs and magnolia extract.

60 vegetarian capsules | NP081 | \$19.95

Anti-Aging

Trehalose™ Complex

Neuroprotective memory-enhancing formula

Always at the frontier of new nutritional science, Dr. D'Adamo has discovered that the molecule trehalose carries unique anti-aging properties. Trehalose Complex, a mix of the revolutionary molecule and synergistic factors, works by encouraging the healthy function of cellular “chaperones.”

Much like adult chaperones at a high school dance, molecular chaperones work to ensure their charges (the proteins inside our cells) behave in a responsible manner. When these biological chaperones are comprised, the cell goes through a stress response that accelerates its aging process. Trehalose Complex works to block aging where it occurs — at the cellular level.

240 grams | NP067 | \$24.95

Membrosia™ Fluidizer

Essential nutrients to support cell health, in an oil form

Dr. Peter D'Adamo blended five natural oils to create Membrosia Fluidizer. Black cumin oil and walnut oil detoxify the nervous system, while perilla seed oil supports healthy immune function. Cod liver oil and flaxseed oil, rich in omega fatty acids, nourish the brain. This formula is a powerful combination of essential nutrients primed to support overall health.

8 fluid ounces | NP076 | \$29.95

Membrosia™ Complex

Essential nutrient to support cell health, in a soluble powder

Cell health is total health. Membrosia Complex contains lecithin, trehalose and uridine, a building block of the RNA molecule. This product represents a unique combination of essential nutrients that eliminate cellular by-products and stabilize the cell membrane to support overall health.

210 grams | NP077 | \$39.95

When used together with Membrosia Complex, Membrosia Fluidizer promotes a fast metabolism, increased energy, healthy aging process and overall sense of well-being.

Digestive Wellness

STAFF
PICK

Intrinsa™

Supports stomach, small intestine and colon health

This powerful formula promotes stomach, intestine and colon health. Butyric acid, a short-chain fatty acid, supports the lining of the intestines and serves the natural process of aerobic energy metabolism. Caprylic acid and larch arabinogalactan provide more fatty acids to further aid the digestive process.

120 vegetarian capsules | NP054 | \$29.95

Gastro-D Complex™

Promotes stomach and intestinal health

Occasional heartburn or bloating seem to be normal parts of modern life. For the simple problems that result from overindulgence or stress eating, Gastro-D Complex can be a useful addition to your supplement protocol. Crafted by Dr. D'Adamo to promote healthy digestion, this revolutionary formula contains deglycyrrhizinated licorice (DGL), mastic gum, safflower tops, slippery elm and bismuth — a unique combination of herbs and minerals designed to soothe an upset stomach.

90 vegetarian capsules | NP042 | \$39.95

Bromelain™

Nature's recovery and repair enzyme

Bromelain is a mixture of enzymes found naturally in the juice and stems of pineapples. Because it possesses proteolytic (protein dissolving) properties, bromelain is widely known as a digestive enzyme. This supplement promotes healthy gut function while easing bloating and gas. It may also help promote joint comfort, especially after physical exertion or a tough workout.

180 vegetarian capsules | NP032 | \$39.95

Carob Extract

Support for fatigue and digestive discomfort

"Outrageously delicious!" "So good, I just want to eat it off the spoon." "I love adding it to my protein drink in the morning."

Customers love our delicious Carob Extract. A nutritious addition to any meal, this product is a blend of four synergistic ingredients designed to support healthy blood sugar levels and intestinal flora. Scientific studies also point to its energy-boosting properties. Carob Extract is great for kids who are picky eaters or for individuals who need extra nutritional support but have problems swallowing pills and capsules. Great substitute for chocolate syrup.

8 fluid ounces | NP063 | \$29.95

Detoxification

Hepatiguard™

Supports healthy liver function

Hepatiguard is designed to promote healthy liver function. Milk thistle extract provides a dose of silybin, an antioxidant that fights free radicals, while bupleurum root regulates body energy and helps eliminate toxins. Turmeric, a staple of Ayurvedic treatments, inhibits uncontrolled tissue growth.

120 vegetarian capsules | NP043 | \$29.95

DetoxiCal-D™

Supports healthy estrogen levels and liver function

DetoxiCal-D promotes liver health and hormonal balance. A synergistic blend of calcium D-glucarate and the botanical phyllanthus, this product works to enhance the body's natural detoxification activities. DetoxiCal-D is 100% vegetarian.

90 vegetarian capsules | NP053 | \$29.95

Redoxa™

Supports immune health, respiratory health and detoxification

In our increasingly toxic world, we are constantly exposed to volatile hydrocarbons, environmental pollutants and dangerous chemicals. Redoxa — a blend of botanicals, antioxidants and the chelating amino acid, N-acetyl cysteine — helps maintain the liver's natural ability to detoxify. This easily absorbed formula also neutralizes free radicals.

90 vegetarian capsules | NP078 | \$25.95

Harmonia Deluxe™

Blood type compliant green drink with added antioxidants

Harmonia Deluxe is an exceptional blend of nutrients designed to enhance health, vitality and energy. Formulated for maximum nutritional integrity and enzymatic activity, this product features a wide variety of sprouted seeds and grasses. Notable ingredients include chlorella, dandelion and parsley, which support the body's natural detoxification mechanisms. Harmonia Deluxe also contains antioxidant-rich fruits, such as elderberry, cherry and blueberry, plus phyto-nutrients like ginger and ginseng. A delicious powder that dissolves instantly in liquid, Harmonia Deluxe is an easy way to add nutrients to your diet.

198 grams/7 ounces | NP000 | \$36.95

Weight & Metabolism

El Dorado™

Unlock the ability to burn sugars and fats

Struggling with a sluggish metabolism? Optimize the conversion of carbohydrates into energy with El Dorado. Changing Seasons & Respiratory Support

Collinsonia Plus®

Support for sinus and throat

In developing Collinsonia Plus, Dr. Peter D'Adamo reasoned that the best way to maintain healthy sinuses would not be to simply apply healing agents to the external surfaces of the sinuses, but to support them from within. This one-of-a-kind formula blends collinsonia, or stone root, with the highest quality larch arabinogalactan for a natural way to maintain throat and sinus health.

Proberry 3™

Powerful antioxidants in a delicious liquid concentrate

A special blend of blueberry, elderberry, red raspberry and cherry extracts, Proberry 3 provides unmatched immune support. The dark-hued berries central to our formula contain powerful antioxidants that fight free radicals and combat aging. This product increases intracellular levels of vitamin C and helps maintain capillary stability. At the same time, Proberry 3 also encourages collagen integrity, inactivates microbial enzymes, enhances resistance to infection and blocks microbial adhesion to cells. The syrup is pleasant tasting and a hit with children. Add a teaspoon to water, tea or juice during cold and flu season — or any time of year — for a potent and delicious tonic. Or, drizzle over pancakes for a healthy treat.

Proberry Caps™

Elderberry and ARA 6: Potent immune enhancers

Recent studies indicate a correlation between consumption of elderberries — a staple of traditional European medicine — and increased antiviral defenses. Proberry Caps' critical 4:1 ratio of elderberry concentrate to ARA 6 is designed to optimize immune function. Plant anthocyanins, such as those found in elderberries, black cherries, blueberries and other pigmented fruits and vegetables, have been shown to block the production of dangerous growth factors. Proberry Caps are key to a strong immune defense.

Change Your Genetic Destiny: The Revolutionary GenoType Diet

Harnessing the power to alter our genes' behavior through nutrition and lifestyle

Expanding his approach to dieting beyond the four blood types, Dr. D'Adamo explains how people can reprogram their genetic destinies to manage weight, repair cells, avoid illness and age gracefully. In this groundbreaking study of what defines an individual, he draws on epigenetics, the study of the interaction between genes and environment, to further personalize nutrition. He has identified six genetic types, or GenoTypes, each with different optimal strategies for health. Whether you are a Hunter, Gatherer, Teacher, Explorer, Warrior or Nomad, his strategies will help you take control of your biological inheritance.

Live Right For Your Type

The Individualized Prescription for Maximizing Health, Metabolism and Vitality in Every Stage of Your Life

Deepen your understanding of blood type genetics and further refine your diet. In *Live Right 4 Your Type (LR4YT)*, perhaps the magnum opus of the blood type theory, Dr. Peter D'Adamo distills the voluminous collection of data on blood type, physiology and metabolism into a series of fascinating observations and simple guidelines. LR4YT seamlessly follows the path paved by its phenomenally successful predecessor, *New York Times* bestseller *Eat Right 4 Your Type*. New data looks at the importance of "secretor subtype," an extension of The Blood Type Diet theory. This publication includes extensive new food lists and prescription recommendations based on secretor status.

Since then, he has authored 18 other books about blood type and personalized nutrition. With over 7 million copies sold in over 65 languages, these works have carried innovative lifestyle recommendations to every corner of the globe. Dr. D'Adamo is the author of the textbook *Fundamentals of Generative Medicine*, along with numerous scientific research papers detailing his ongoing work in naturopathy.

Outside of writing, Dr. D'Adamo serves as the chief scientific advisor and master formulator at D'Adamo Personalized Nutrition. The founder of Datapunk Bioinformatics, LLC, he has designed numerous software programs, transforming the way we understand genomics. Among his most popular are Opus23, Utopia, SWAMI XP2 Personalized Nutrition program and the brand new Datapunk DietBuddy. In his spare time, Dr. D'Adamo enjoys restoring vintage Volkswagens, repairing antique clocks, kayaking and enjoying time with his family in southwestern Connecticut, as well as at a favorite lakeside retreat in rural Pennsylvania.

Who We Are

D'Adamo Personalized Nutrition (DPN) is the first company dedicated to supporting individuals following The Blood Type Diet, GenoType Diet or a personalized SWAMI program. Under the leadership of Dr. Peter D'Adamo, our chief visionary officer and formulator, the company has thrived for over 20 years.

Here at DPN, you'll find the concept of personalization in every aspect of our company's operations — from the individualized customer attention we provide to our one-of-a-kind supplements. Our formulas are different because you're different.

When buying DPN products, you can be sure of the following:

- Our products are produced in GMP (Good Manufacturing Practices) facilities that have been certified with an "A" compliance rating through the Natural Products Association.
- We use hypoallergenic vegetarian capsules for all of our formulas.
- Our products do not contain artificial fillers, animal steirates or synthetic lubricants.
- Many of our products use certified organic ingredients.

We recognize that our customers are not just following a diet, but embracing a personalized lifestyle. Our goal is to provide guidance, education, nutritional supplements and lifestyle products made just for you to support this rewarding journey to better health.

Welcome to personalized living.

DATAPUNK DietBuddy™

The diet that knows **you** best can now know you **even better.**

DietBuddy is a one-of-a-kind, web-based program tailored to track your foods and specific health goals. From measuring nutritional compliance to mapping meals, DietBuddy is totally free.

Measure diet compliance

Pie charts provide an easy-to-read breakdown of user compliance. The best part? DietBuddy tailors its feedback to your personalized nutritional regimen, allowing for better self-regulation and accelerating the journey to optimal health.

Connect with friends & gain support

A social media platform for nutrition, DietBuddy allows you to communicate and share data with friends. Connecting with other dieters may boost your morale, giving you the inspiration and determination to reach all your health goals.

Plan meals

The DietBuddy Weekly Planner uses an intuitive drag-and-drop interface that allows users to schedule meals. Designing a nutritional roadmap will help you avoid diet "cheats," keeping you on track for future success.

Track overall health data

Gain valuable insight into how diet and exercise affect energy levels, weight, sleep quality, and digestive elimination. Your nutritional progress is cause for celebration! With DietBuddy, you can clearly see your health accomplishments.

Every diet is easier with a friend. Find yours with DietBuddy.
